📍 Bojnourd, North Khorasan , Iran

## Profile Summary

I am a dedicated NestJS developer specializing in creating efficient and scalable applications. With a strong focus on backend development using Node.js and NestJS, I excel in delivering high-quality code for diverse projects. My technical journey includes the design of an innovative custom sorting algorithm, MostafMerge (available at: MostafMerge Algorithm), showcasing my problem-solving skills and ability to develop unique solutions.

Over the past 8 months, I have worked closely with a mentor to enhance my expertise in software architecture, advanced coding practices, and problem-solving techniques, which has refined my development approach and analytical skills.

I bring 2.5 years of experience from Lamasoo, where I have:

Worked as a Developer for 8 months on various backend projects.  
Served as a Scrum Master for 8 months, effectively managing team workflows and facilitating agile practices.

Contributed to Product Support for 2 years, addressing client needs and ensuring seamless product operations.

Worked as a Quality Control (QC) Specialist for 4 months, ensuring high-quality software delivery.

I am passionate about learning new technologies and actively share my insights through articles on Virgool (@m\_61113331). My aim is to provide valuable contributions to the developer community.

## Work Experience

### nestjs developer

lamasoo

Tehran, Iran

June 2023 - March 2024

## Skills

- Node.js
- JavaScript
- nestjs
- REST API
- MongoDB
- Docker
- message broker
- Git
- Concurrency and Multithreading in Node.js Web Protocols and Networking: HTTP/3 over UDP & TLS/SSL Web Protocols and Networking: HTTP/3 over UDP & TLS/SSL Show all 17 skills
- Elasticsearch
- Post-Quantum Cryptography
- PostgreSQL
- Web Protocols and Networking: HTTP/3 over UDP & TLS/SSL
- graphql
